

What is claimed is:

1. A use of N-acetyl-D-glucosamine or pharmaceutically acceptable salts thereof in the manufacture of a medicament for treating organ lesions caused by toxicants and drugs.
2. A use according to claim 1, wherein said medicament is of an injectable form and is parenterally administered.
3. A use according to 1 or 2, wherein the N-acetyl-D-glucosamine or pharmaceutically acceptable salts thereof in said medicament has a concentration of 0.1-10% by weight.
4. A use of N-acetyl-D-glucosamine or pharmaceutically acceptable salts thereof in treating organ lesions caused by toxicants and drugs.
5. A method for treating organ lesions caused by toxicants and drugs, comprising administering a patient a pharmaceutical composition comprising an effective amount of N-acetyl-D-glucosamine or pharmaceutically acceptable salts thereof.
6. A method according to claim 5, wherein said pharmaceutical composition is of an injectable form and is parenterally administered.
7. A use according to 5 or 6, wherein the N-acetyl-D-glucosamine or pharmaceutically acceptable salts thereof in said pharmaceutical composition has a concentration of 0.1-10% by weight.
